ADMINISTRATIVE MANUAL COUNTY OF LOS ANGELES DEPARTMENT OF PUBLIC WORKS BUILDING AND SAFETY DIVISION

AM 30.13 Attachment A 04-27-09 Page 1 of 2

NOTICE TO PROPERTY OWNER

Dear Property Owner:

An application for a building permit has been submitted in your name listing yourself as the poul builder of the property improvements specified at (100) Holfing Structure (Property Address or Assessor Parcel)

We are providing you with an Owner-Builder Acknowledgement and Information Verification Form to make you aware of your responsibilities and possible risk you may incur by having this permit issued in your name as the Owner-Builder.

We will not issue a building permit until you have read, initialed your understanding of each provision, signed, and returned this form to us. An agent of the owner cannot execute this notice unless you, the property owner, obtain the prior approval of the permitting authority.

OWNER'S ACKNOWLEDGMENT AND VERIFICATION OF INFORMATION

DIRECTIONS: Read and initial each statement below to signify you understand or verify this information.

I understand a frequent practice of unlicensed persons is to have the property owner obtain an "Owner-Builder" building permit that erroneously implies that the property owner is providing his or her own labor and material personally. I, as an Owner-Builder, may be held liable and subject to serious financial risk for any injuries sustained by an unlicensed person and his or her employees while working on my property. My homeowner's insurance may not provide coverage for those injuries. I am willfully acting as an Owner-Builder and am aware of the limits of my insurance coverage for injuries to workers on my property.

I understand building permits are not required to be signed by property owners unless they are responsible for the construction and are not hiring a California licensed Contractor to assume this responsibility.

I understand as an "Owner-Builder" I am the responsible party of record on the permit. I understand that I may protect myself from potential financial risk by hiring a licensed Contractor and having the permit filed in his or her name instead of my own.

I understand Contractors are required by law to be licensed and bonded in California and to list their license numbers on permits and contracts.

I understand if I employ or otherwise engage any person(s), other than California licensed Contractor(s), and the total value of my construction is more than five hundred dollars (\$500), including labor and materials, I may be considered an "employer" under State and Federal law.

I understand if I am considered an "employer" under State and Federal law, I must register with the State and Federal government, withhold payroll taxes, provide workers' compensation disability insurance, and contribute to unemployment compensation for each "employee." I also understand my failure to abide by these laws may subject me to serious financial risk.

| <u>J-C.</u> 7. | I understand under California Contractors' State License Law, an Owner-Builder who builds single-family residential structures cannot legally build them with the intent to offer them for sale, unless all work is performed by licensed subcontractors and the number of structures does not exceed four within any calendar year, or all of the work is performed under contract with a licensed general building Contractor. |
|---|--|
| J. C. 9. | I understand as an Owner-Builder if I sell the property for which this permit is issued, I may be held liable for any financial or personal injuries sustained by any subsequent owner(s) that result from any latent construction defects in the workmanship or materials. |
| <u>J. C.</u> 9. | I understand I may obtain more information regarding my obligations as an "employer" from the Internal Revenue Service, the United States Small Business Administration, the California Department of Benefit Payments, and the California Division of Industrial Accidents. I also understand I may contact the California Contractors' State License Board (CSLB) at 1-800-321-CSLB (2752) or www.cslb.ca.gov for more information about licensed contractors. |
| <u>J. (.</u> 10. | I am aware of and consent to an Owner-Builder building permit applied for in my name, and understand that I am the party legally and financially responsible for proposed construction activity at the following address: U208 Holmes Aux LA CA 9000 |
| | . 1974) 1974 (1974) |
| <u>J. C.11.</u> <u>J. C.12.</u> | I agree that, as the party legally and financially responsible for this proposed construction activity, I will abide by all applicable laws and requirements that govern Owner-Builders as well as employers. I agree to notify the issuer of this form immediately of any additions, deletions, or changes to any of the information I have provided on this form. |
| not have a lic sustain as a important for working on y hire Contrac | ntractors are regulated by laws designed to protect the public. If you contract with someone who does cense, the Contractors' State License Board may be unable to assist you with any financial loss you may result of a complaint. Your only remedy against unlicensed Contractors may be in civil court. It is also you to understand that if an unlicensed Contractor or employee of that individual or firm is injured while your property, you may be held liable for damages. If you obtain a permit as Owner-Builder and wish to tors, you will be responsible for verifying whether or not those Contractors are properly licensed and the ir workers' compensation insurance coverage. |
| Before a builto the agence | Iding permit can be issued, this form must be completed and signed by the property owner and returned > cy responsible for issuing the permit. |
| Note: A copy | of the property owner's driver's license, form notarization, or other verification acceptable to the agency obe presented when the permit is issued to verify the property owner's signature. |
| YES N | IO I am the bona fide owner of the single-family dwelling identified above, and it is my principal dence. |

Please be advised, should we become aware that there is a violation of any section of the Contractor's License Law at a construction project within our jurisdiction, the names of those individuals, including the owner and any unlicensed persons involved in such violations, will be reported immediately to the Contractor's State License Board for follow-up action including possible legal actions as allowed by law.

ATTACHMENT A

BEST MANAGEMENT PRACTICES FOR CONSTRUCTION ACTIVITIES*

Storm Water Pollution Control Requirements for Construction Activities
Minimum Water Quality Protection Requirements for All Development Construction
Projects/Certification Statement

The following is intended as minimum notes or as an attachment for building and grading plans and represent the minimum standards of good housekeeping that must be implemented on all construction sites regardless of size. (Applies to all permits)

- Eroded sediments and other pollutants must be retained on site and may not be transported from the site via sheetflow, swales, area drains, natural drainage courses or wind.
- Stockpiles of earth and other construction related materials must be protected from being transported from the site by the forces of wind or water.
- Fuels, oils, solvents and other toxic materials must be stored in accordance with their listing and are not to contaminate the soil and surface waters. All approved storage containers are to be protected from the weather. Spills must be cleaned up immediately and disposed of in a proper manner. Spills may not be washed into the drainage system.
- Non-stormwater runoff from equipment and vehicle washing and any other activity shall be contained at the project site.
- Excess or waste concrete may not be washed into the public way or any other drainage system. Provisions shall be made to retain concrete wastes on site until they can be disposed of as solid waste.
- Trash and construction related solid wastes must be deposited into a covered receptacle to prevent contamination of rainwater and dispersal by wind.
- Sediments and other materials may not be tracked from the site by vehicle traffic. The construction
 entrance roadways must be stabilized so as to inhibit sediments from being deposited into the public way.
 Accidental depositions must be swept up immediately and may not be washed down by rain or other
 means.

Certify that I will comply with these requirements.
